

# Haruni by Emily Ross, PineSlayer's Chart A

Credits  
 Designer: EMILY ROSS  
 Chart Adaptation: Dee Sperling

Row directions are read from right to left (the same direction that you're knitting) and from top to bottom.

The number of times you do a stitch or set of stitches is above the stitch or set of stitches enclosed in that box.

To the right of each row is the row number, highlighted in yellow, and to the left of that is the stitch count when finished working the row.

Example: Row 5 of chart A of Haruni by Emily Ross (Ravelry name: knitterain)

In the example:

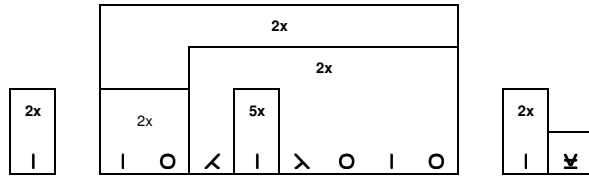

The first 3 stitches are worked once then you move on to the next section of stitches. The first 3 sts in this section are worked, the next set of 2 sts is worked twice (as indicated by the 2x on the top inside the box enclosing this set of stitches) then the next 3 sts are worked once.

This whole section is then worked once more for a total of 2 times, as indicated by 2x at the top of the box enclosing all the stitches in this section.

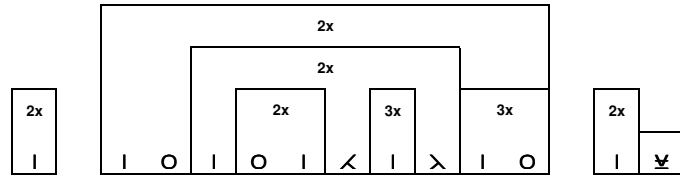

To complete the row, the next set of sts is worked once.
