

Haruni by Emily Ross, PineSlayer's Chart B

Credits
 Designer: EMILY ROSS (Ravelry: knitterain)
 Chart Adaptation: Dee Sperling (Ravelry: PineSlayerDee)

Row directions are read from right to left (the same direction that you're knitting) and from top to bottom.

The number of times you do a stitch or set of stitches is above the stitch or set of stitches enclosed in that box.

To the right of each row is the row number, highlighted in yellow, and to the left of that is the stitch count when finished working the row.

Example: Row 1 of chart B for Haruni by Emily Ross (Ravelry name: knitterain)

In the example:

The first 3 stitches are worked, then you move on to the next section of stitches.

The first 4 sts are worked in this section, the next st worked twice (as indicated by the 2x in the box enclosing this st).

Work the next 3 sts, work the next st twice (as indicated by the 2x in the box enclosing this st), work the next st.

The next st is worked twice (as indicated by the 2x in the box enclosing this st) the next 3 sts are worked.

The next st is worked twice (as indicated by the 2x in the box enclosing this st) then the final st in this section is worked.

This entire set of stitches is worked a total of 6 times, as indicated in the box enclosing the set.

Once the sets of stitches is worked a total of 6 times, the next set (yo, k1) is worked twice.

Then you work this whole section one more time, as indicated by the 2x at the top of the box enclosing this section.

To complete the row, the next set of sts is worked 2 times.

If you have questions or need clarification regarding this chart, Dee can be reached on Ravelry, Ravelry name is PineSlayerDee.

NOTES: If you did more or less repeats (of Rows 17-32) of Chart A, you will need to adjust the number of repeats in Chart B. If you did 3 repeats instead of 4 for a smaller shawl, repeat main section 1 less time. Conversely, if you did 5 repeats (of Rows 17-32) of Chart A, then you would repeat the main section 1 more time.
